ENVIRONMENTAL MAJOR PROGRAMS

The SpecPro Group and U.S. Army *(continued)*

The SpecPro Group's personnel participate in all phases of projects to ensure compliance with all environmental planning requirements. We provide environmental design, as well as permitting and construction.

The SpecPro Group implemented several green initiatives such as operating a 24-acre hazardous landfill and a ground water treatment plant. They also saved the U.S. Army money in avoided disposal costs by implementing a recycling program for wood chips and concrete.

Highlights

- 6.4M square feet of asbestos abated
- 325,000 tons concrete crushed for road landfill
- 388,633 tons demo material hauled to landfill
- 473,792 tons of soil transferred to landfill
- 3M gal water treated per day 1.1 Trillion gal / year
- 60.4 miles sewage pipe removed
- >\$680,000 saved in avoided disposal costs per year
